

# News FOR YOU...

## Help Support our Local Businesses

**B**arron Electric Cooperative is concerned about the communities we serve and supports local businesses. COVID-19 has had an impact on our communities. When you buy local, you're making a personal investment in your community. Money is kept in the community because locally-owned businesses often purchase from other local businesses, farms, and service providers. Looking for a great meal in? Help support the restaurants listed below, who are Barron Electric members:

# Chris Olsen is Committed to Making the Rural Area a Better Place to Live

Congratulations to our newest Megawatt Community Service Award winner. Chris Olsen was instrumental in developing the Barron County COVID-19 Response & Recovery Fund to help local non-profit food pantries. This is a partnership between the United Way of Rice Lake and Barron County Department of Health & Human Services. Chris currently serves as treasurer of the United Way of Rice Lake's Board of Directors. He was past president of the Barron County Sunrise Rotary Club. Similar to Barron Electric's mission, Barron County Sunrise Rotary works to support causes that help to better the lives of people locally, nationally, and internationally. He has also served as president of the Rice Lake Chamber of Commerce. He was a Cub Scout Master for Boy Scouts of America. He currently serves on the Rice Lake Main Street Association's Board of Directors, which helps to strengthen the downtown. He has also served as a Town Supervisor for the Town of Stanford. In the past, he helped coach youth soccer for the Rice Lake Youth Soccer Association. Chris remarked, "Volunteering in the community broadens my horizons and allows me to meet people I otherwise would have never met. It's a great feeling to give back to the community that gave me so many opportunities while growing up."

## Win a \$50 Electric Bill Credit

Barron Electric is led by members like you who understand and listen to the community. Nominate a member for the Megawatt Community Service Award. Each winner will receive a \$50 electric bill credit. Application forms can be found at [barronelectric.com](http://barronelectric.com) in the community area or by contacting the Member Services Department at 800-322-1008.

## Cook's Corner

Cindy Broker

### Crock Pot Cheeseburger Soup

- 1 lb. ground beef, browned
- ½ cup chopped onion
- ½ cup chopped pepper
- 1 can diced tomatoes (14.5 oz.)
- 1 tsp. salt
- 1 tsp. oregano
- ½ tsp pepper
- 3 cups beef broth
- 4 cups diced potatoes
- ¼ cup flour
- 1 cup milk
- 8 oz. shredded cheddar cheese

Combine the beef, onion, pepper, spices, tomatoes, broth, and potatoes in crock pot. Cover and cook on low for 8 hours. About 30 minutes before serving, combine flour and milk. Whisk until no lumps remain. Stir into soup. Add cheese and stir again. Cover and cook until soup is thickened, about 30 minutes.

## Pole Testing Starts This Month

Barron Electric Cooperative has contracted with American Energy Services to test poles in Maple Plain and Lakeland Townships in Barron County, Roosevelt Township in Burnett County, and Barronett Township in Washburn County. Their trucks will have a magnetic sign that displays Barron Electric Cooperative's name. A 4-wheeler may also be used to move efficiently throughout the system.

If you have any questions, please call the Operation's Department at 800-322-1008 between 7:45 a.m. and 4:30 p.m. weekdays or e-mail [operations@barronelectric.com](mailto:operations@barronelectric.com).

# Make Saving Energy Fun

**M**ake saving energy fun! Take the home adventure at [touchstoneenergy.com](http://touchstoneenergy.com) to learn where you can save money. Here's a list to get you started:

## Working from home?

- Electronic devices such as cable boxes, printers and TVs use power even when they are turned off, also called a "phantom" load. Use power strips that can be turned off when there are long periods without use.
- Your computer comes with energy-saving features, but they may not be turned on. Activate the power management controls on your computer to save.
- Take advantage of natural light. Set up for the day in a spot with plenty of natural light. Natural light can boost your mood and productivity.

## More Energy Saving Ideas

- Do you turn off your TV entirely when not in use? When you are not using the TV, turn it off completely. Many TVs continue to use energy even after they are turned off. Remember to check for energy-saving settings on flat-panel TVs like automatic brightness control and power-saving sleep mode.
- Use lids for your pots and pans to retain more heat and cook food faster plus save energy.

- Enable auto power-down features on gaming consoles to help save energy.
- Limit your shower length to 5-7 minutes to save gallons of water and reduce the amount of energy used to heat it, lowering your water and electric bills each month.
- Turn off bathroom and kitchen exhaust fans 15 minutes after the job is complete or install 15 minute timers on bathroom ventilator fans.
- Use cold water when rinsing dishes before putting them into the dishwasher to avoid wasting hot water and energy.
- Run the dishwasher only when it is a full load. Save energy by using your dishwasher's air-dry cycle instead of the heat-dry cycle to dry your dishes .

- Using a refrigerator's anti-sweat heater uses more energy. Use the feature only when necessary. Always switch your refrigerator's power-saver to "on" if available to save energy and money. Clean refrigerator coils at least once annually to ensure your fridge is working properly and efficiently.
- A faucet leaking even just one drop a second can amount to over a thousand gallons of wasted water in a year.

## Need Assistance with Your Energy Bills?

**I**n response to the COVID-19 crisis, the Department of Administration has adjusted the eligibility requirements for residents who are seeking heating and electric assistance through the Wisconsin Home Energy Assistance Program (WHEAP). Eligibility will now be based on the household's previous month of income, rather than the former requirement of the previous three months of income. This will allow those who are recently affected by the COVID-19 to receive assistance quickly. Energy Assistance will be open through September 30 for the heating season 2019-2020, with the 2020-2021 season beginning October 1.
